SATURDAY, FEB. 20, 1897.

MUNICIPAL ELECTION, MONDAY, MARCH 8.

FOR MAYOR:

DANIEL A. ROBINSON.

CAUCUS FOR WARD OFFICERS.

The Rep. citizens of Bangor, who met in the polling places in their several wards.

Saturday, Feb. 20th at 7:30 o'clock, to nominate one Alderman, three Councilmen, Wardens and Clerk in each Ward, to be supported at the Municipal election to be held March 8th, and to elect a member of the City Committee in each Ward to serve for the ensuing year.

For the order of the Republican Committee, ISAIAH K. STATION, Chairman.

Engorg. Pol. Club, 1897.

The Republican Candidates.

For some days past there has been more or less talk in certain quarters about a "selected" candidate for Mayor. The Republicans of Bangor, however, have not actually put a check on that sort of silly criticism. Friday evening, when five hundred and thirty members of the party went in the polling places in the different wards, and unanimously elected delegates favorable to the nomination of Dr. D. A. Robinson. It was a remarkable showing that one which cannot fail to be highly gratifying to the noisiness. A standing notice has appeared in the Bangor News for several days containing the announcement of Mayor Head that he should not go into the ward primaries, and calling a caucus of his own. This announcement of itself, did not have been sufficient to stay the fears of the people, as the Mayor has decided them in similar matters in the past, but a careful examination of the situation in the different wards revealed the fact, that no contest was to be made.

In spite of this fact, however, so thoroughly in earnest are the Republicans of the city that they voted to the polls and gave the party candidate one of the most magnificent endorsements in Bangor's political history. Not only were the caucuses largely attended in the aggregate, but the very representative men of the party were present. A significant fact and one that must refer to the humiliation of the few interested critics is that not a single vote was cast in one of the seven wards in opposition to Dr. Robinson, and the delegate nomination was made with equal unanimity.

In the person of Dr. Robinson the Republicans and the citizens generally have a candidate in whom they can repose perfect confidence. He is in touch with the people. A poor boy has made his own way in the world, working out a career by his own unaided efforts that is a credit to himself and an honor to the city, in the effects of which he has always taken a deep interest. Adopting any notion of that offered itself, either in the mills or as a teacher in the public schools, he earned the money with which to secure an education that has made him ready one of the leading physicians in the city. A public-spirited, progressive citizen, he has found time in addition to the care of a large practice to devote himself to educational matters, and to him in a large measure is due the splendid organization of our public school system, second to none in the State. He is familiar with the affairs of the city and if elected, as we fully believe he will be, will give the citizens a clean, honest and satisfactory administration. He did not seek the nomination, but on the contrary it sought him and the people of Bangor should see to it that he is our next Mayor.

The work so well begun Friday night has to be completed this evening when the ward caucuses will be held. Good men and true should be nominated and to this end we hope to see every Republican in the land. Let it be remembered that while Mayor Head does not recognize the authority of the City Committee to call Mayoralty caucuses that are blighting upon him, be kindly concepts to recognize the ward caucuses this evening and will be present with his followers. In addition to the nomination of members of the City Government, members of the City Committee is to be elected in each ward and the Mayor will put forth every possible effort to get control of said committee. Forewarned is forearmed and if the Republicans do their duty to-night and bring out every vote this scheme may be frustrated. Once he gets control of the City Committee he will again establish the old general caucuses and go on nominating himself just as long as his personal ends can be served.

The caucuses are called for half past seven o'clock.

"Busy Man."

Mayor Head says he is a busy man. This is about the only truthful statement the Mayor has made for some time. He has never been quite busy, however, as he is at the present moment while engaged in an effort to overthrow the Republicans in the interest of the Health.

He is so busy in fact that he has not time to write all of his numerous correspondence and appropriate a liberal portion of his "Whole" editorial, referred to himself, changes a word or two and sees it as his own original production. This is a concession, not a regular way of preparing communications. But what makes the Mayor a busy man?

There are lots of men in Bangor that have more business to attend to than the Mayor although he is the busiest man in the city today.

Aside from the time occupied in supplying the Bangor News with communications he is driving his business to his all absorbing interest of working up "Health" and "Health" books. He has been doing this for years until now, he wishes to have a ring sufficiently strong to make him a member of the Rep. party. He may be successful in this, but it is not the best method of getting into the Rep. party. The

people believe that he is the only real good Republican in the city; that all the rest who disagree with him are a wicked lot, cowards of confidence. It is the case of the ostrich again. When that bird hides its head he imagines that he is completely concealed. The Mayor thinks that by assailing better citizens than himself, he can hide his record. We rather like the looks of that record and give it again, only in a little different form:
